Trusted by leading organizations

Cora works with leading organizations around the world across an array of industries, including life sciences, healthcare, government, engineering, construction and more.

cora

cora LIFE SCIENCES

Ensuring delivery success and accelerate speed to market, transforming strategic vision into reality.

cora HEALTHCARE

Integrating delivery systems in order to share information, report to agencies and provide health services to their patients.

cora GOVERNMENT

Consolidating data required to make better-informed decisions, budgetary adjustments, service changes and project prioritization.

cora ENGINEERING

Providing a holistic view of infrastructure, asset and project information and their interdependencies.

cora EPMO

Complete control, governance and insight to EPMO's in Consulting, ICT, Transport, Utilities, Financial Services, Oil & Gas.

The Value

Digitize your programs and lifecycles, gain greater insights, more informed decision-making, and streamline your governance and reporting.

✔ **Strategic Insights**

Roll out failsafe, strategically-aligned projects that utilize resources and deliver maximum value.

✔ **See The Full Picture**

Quickly view data dashboards that visualize the health of your portfolio and drill-down to focus in on any issues.

✔ **Support Governance**

Ensure the right people have the right oversight with multi-level access protocols.

✔ **Easily Scale**

Small to large, local to global, all in the cloud.

✔ **Complete Control**

Manage scope, financials, progress and quality of project delivery in one centralized system.

✔ **Seamless Collaboration**

No matter the team – internal or contractor, desk-based or mobile – integrations make workflows seamless.

Strategic Functionality

The strategic functionality required to optimize capacity, prioritize and track the benefits of your business plan, inform all stakeholders and integrate across the business technologies to achieve maximum performance from your portfolios of work

Portfolio Selection

Auto-select the preferred portfolio based on your criteria and compare alternatives, ensuring your portfolio delivers the maximum return.

Top-Down Budgeting

Logically split budget across your portfolios. Easily track forecasting from execution against portfolio budgets to measure performance.

Strategic Capacity Management

Easily understand requirements for the year ahead and maximize usage of global resource pools.

Benefits Realization

Plan and track benefit realization across the organization.

Scenario Planning

Make Portfolio balancing easy, while ensuring strategic alignment, capacity planning and global efficiencies across the enterprise

Prioritization

Using a criteria, based on your requirements to score and weight projects, slice-and-dice data to come up with a repeatable, reliable and robust portfolio scoring mechanism.

Business Intelligence

Embedded "BI" provides powerful data and insights that enable fast, informed decisions accessible to everyone via shared dashboard and interactive reports.

Execution Functionality

The essential functionality required to automate your PMO, providing you with the ability to plan, prioritize, execute and evaluate your project portfolios.

Engine

A full set of tools needed to create, plan and manage your entire portfolio of projects.

Forms

Turn free-format text into structured, reportable data.

Dashboards

Project and program level, visualizing the health of your portfolio; personal dashboards provide a digital 'to-do' list.

Resources

Plan resource requirements for your project; track variation between planned and actual resources.

Finance

Manage your project finances from initial estimate through to actual spend.

Registers

Completely customizable logs for managing actions, lessons learned, decisions & more.

Reporting

Suite of reports that are used by various roles to extract and publish information in just a few clicks.

Workflow

Design and manage the approval of data in Cora Forms and Cora Registers.

Document Management

Attach or link documents to projects, risks, tasks & registers. Annotate documents with mark-up tools directly within the application.

GIS Mapping

Plot projects on a map, visualizing activity location and identifying synergies.

Mobile

Mobile apps for Android and iOS. Access and update key project activity from anywhere.

Portal

A flexible framework that provides access to data contained in Cora PPM to a wider audience.

cora

Connecting Execution with Strategy

Integrate & Consolidate

The Cora API module facilitates easy integration with any enterprise technology architecture. This allows for a central, enterprise PMO platform providing one version of the truth working seamlessly with external systems and data sources. Data is entered only once across the business enabling a connected enterprise.
